

A BIT OF MATHS EACH DAY – HIGHER TIER GCSE – NOVEMBER 2017

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY														
<h1 style="color: red; font-size: 2em; margin: 0;">November</h1>																				
	1 st	1 st	2 nd	3 rd	4 th	5 th														
		<table border="1" style="margin-left: auto; margin-right: auto;"> <tr> <th>Height, h, cm</th> <th>Frequency</th> </tr> <tr> <td>$0 < h \leq 10$</td> <td>6</td> </tr> <tr> <td>$10 < h \leq 20$</td> <td>9</td> </tr> <tr> <td>$20 < h \leq 30$</td> <td>18</td> </tr> <tr> <td>$30 < h \leq 40$</td> <td>12</td> </tr> <tr> <td>$40 < h \leq 50$</td> <td>5</td> </tr> </table> <p>The table shows the heights of some tomato plants in a greenhouse. Work out the group the median lies in AND estimate the mean height of the tomatoes.</p>	Height, h, cm	Frequency	$0 < h \leq 10$	6	$10 < h \leq 20$	9	$20 < h \leq 30$	18	$30 < h \leq 40$	12	$40 < h \leq 50$	5	<p>ABCD is a rectangle. Find its area</p> 	 <p>This is the graph of $y = f(x)$</p> <p>(a) Find the roots of $y = f(x)$</p> <p>(b) Find the value of $f(0)$</p>	 <p>A small cone has been removed from a larger cone to produce a frustum of a cone. Find the surface area of the frustum.</p> <p>Volume of a cone = $\frac{1}{3}\pi r^2 h$ Curved surface area of a cone = $\pi r l$ h = height of cone, r = radius of cone, l = slant height of the cone.</p>			
Height, h, cm	Frequency																			
$0 < h \leq 10$	6																			
$10 < h \leq 20$	9																			
$20 < h \leq 30$	18																			
$30 < h \leq 40$	12																			
$40 < h \leq 50$	5																			
6 th	7 th	8 th	9 th	10 th	11 th	12 th														
<p>Solve the equation</p> $\frac{2x-3}{5} + \frac{3x}{4} = 3$	 <p>Find the size of angle z. Explain your reasoning clearly.</p>	 <p>Find the size of the largest angle in this triangle.</p>	<p>The diagram shows a sector of a circle of radius 15 cm. Find its perimeter and area.</p> 	<p>Two jars contain coloured counters. Jar A contains 4 red, 9 blue and 7 white counters. Jar B contains 4 red and 11 white counters. A counter is removed from Jar A and put in Jar B. A counter is then removed from Jar B. What is the probability that the counters removed in both cases are different in colour?</p>	<p>The diagram shows a solid hemisphere. Its volume is $\frac{250}{3}\pi \text{ cm}^3$.</p>  <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 5px auto;"> <p>Volume of sphere = $\frac{4}{3}\pi r^3$ Surface area of sphere = $4\pi r^2$</p> </div> <p>Work out the exact surface area of the hemisphere. Give your answer as a multiple of π</p>															
13 th	14 th	15 th	16 th	17 th	18 th	19 th														
<p>Susie has to deliver some packages and some parcels. The total number of packages is 4 times the number of parcels. The total number of packages and parcels is 40. Each parcel has a weight of 1.5kg. The total weight of the packages and parcels is 37.6 kg. Each of the packages has the same weight. Work out the weight of each package.</p>	 <p>Calculate the length of BC.</p>	<p>Solve the equation</p> $16x^2 + x = x + 9$	<p>(a) Derek sold his house in 2014 for £154,500. He invested his money in a bank which paid him x% compound interest over a two year period. In 2016 he had £167,107.20 in his bank account. Find the value of x.</p> <p>(b) When he had sold his house, he had made a 3% profit on the sale. How much did he originally pay for the house?</p>	<p>R is inversely proportional to A. When $R = 12.1$, $A = 1.5$.</p> <p>Find R when $A = 4$</p>	<p>The total capacity of an oil tank is 8600 litres, correct to the nearest 100 litres. The tank should only be filled to 95% if it's total capacity. A pump can deliver oil to the tank at a rate of 740 litres per minute, correct to the nearest 10 litres per minute. Calculate the maximum possible time it would take to fill the empty tank. Give your answer in minutes and seconds.</p>															
20 th	21 st	22 nd	23 rd	24 th	25 th	26 th														
 <p>How many sides does this regular polygon have?</p>	<p>Prove that the difference between any two consecutive square integers is equal to the sum of these two integers.</p>	<p>Write $2.12\bar{5}$ as a fraction in its simplest form</p>	 <p>Work out the size of angle STA. Give reasons for each stage of your working.</p>	<p>Q is inversely proportional to t^2. $Q = 320$ when $t = 0.5$. Find t when $Q = 5$.</p>	<table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th>Time (t minutes)</th> <th>Cumulative frequency</th> </tr> </thead> <tbody> <tr> <td>$160 < t \leq 180$</td> <td>9</td> </tr> <tr> <td>$160 < t \leq 200$</td> <td>35</td> </tr> <tr> <td>$160 < t \leq 220$</td> <td>68</td> </tr> <tr> <td>$160 < t \leq 240$</td> <td>80</td> </tr> <tr> <td>$160 < t \leq 260$</td> <td>89</td> </tr> <tr> <td>$160 < t \leq 280$</td> <td>92</td> </tr> </tbody> </table> <p>The table shows the times taken for 92 runners to complete a marathon. Estimate the mean time taken to complete the marathon.</p>	Time (t minutes)	Cumulative frequency	$160 < t \leq 180$	9	$160 < t \leq 200$	35	$160 < t \leq 220$	68	$160 < t \leq 240$	80	$160 < t \leq 260$	89	$160 < t \leq 280$	92	
Time (t minutes)	Cumulative frequency																			
$160 < t \leq 180$	9																			
$160 < t \leq 200$	35																			
$160 < t \leq 220$	68																			
$160 < t \leq 240$	80																			
$160 < t \leq 260$	89																			
$160 < t \leq 280$	92																			
27 th	28 th	29 th	30 th	<p>The best way to learn mathematics is to DO mathematics. If you do something regularly on a daily basis you will make a bigger difference than leaving it till just before your exams. If you need help there are some fantastic videos at www.corbettmaths.com Or you can always tweet me @mrchadburn</p>																
<p>A solid sphere has a mass of 1180g (to the nearest g) and radius of 6.2cm (correct to 1dp). Find the upper bound of its density in g/cm^3.</p>	<p>Solve, algebraically, these simultaneous equations...</p> $y = 2x^2 + 3x - 10$ $y - 5 = 2x$	<p>Show that</p> $\frac{1}{3x^2-4x-4} \div \frac{1}{9x^2-4}$ <p>can be simplified to</p> $\frac{ax+b}{cx+d}$ <p>where a, b, c and d are integers to be found.</p>	<p>Find the size of angle x.</p>
